CENTRE

## Use Video Note

Several tools in your course including Assignments, Discussions and Quizzes allow you to use Video Note to make short video recordings of up to 3 minutes from any device or computer with a camera and internet access.

Video Note should work with any browser, provided that Flash is enabled in the browser settings. If you experience difficulties, we recommend that you use Chrome and login to your AMDSB GSuite account.

Comments

In the Assignments Tool, you can use the 'Record Video' Button in the file options OR you can select the 'Insert Stuff' Icon on the Wiziwig editor. (see above)

In the Discussions Tool, you can use the 'Record Video' option under the attachments/record section OR you can also use the 'Insert Stuff' icon on the Wiziwig editor. (see below)

- Choose the **Record Webcam Video** button and then new recording. You may have to scroll down a bit to find this button under your webcam preview image.
- When you are done, choose **Stop Recording** and then **Add**.
- Give your file a title, using the same pattern as with other file names of your name, course code and module and or activity number.
- When you are ready, click on **Submit** or **Post**.
