

# How To:

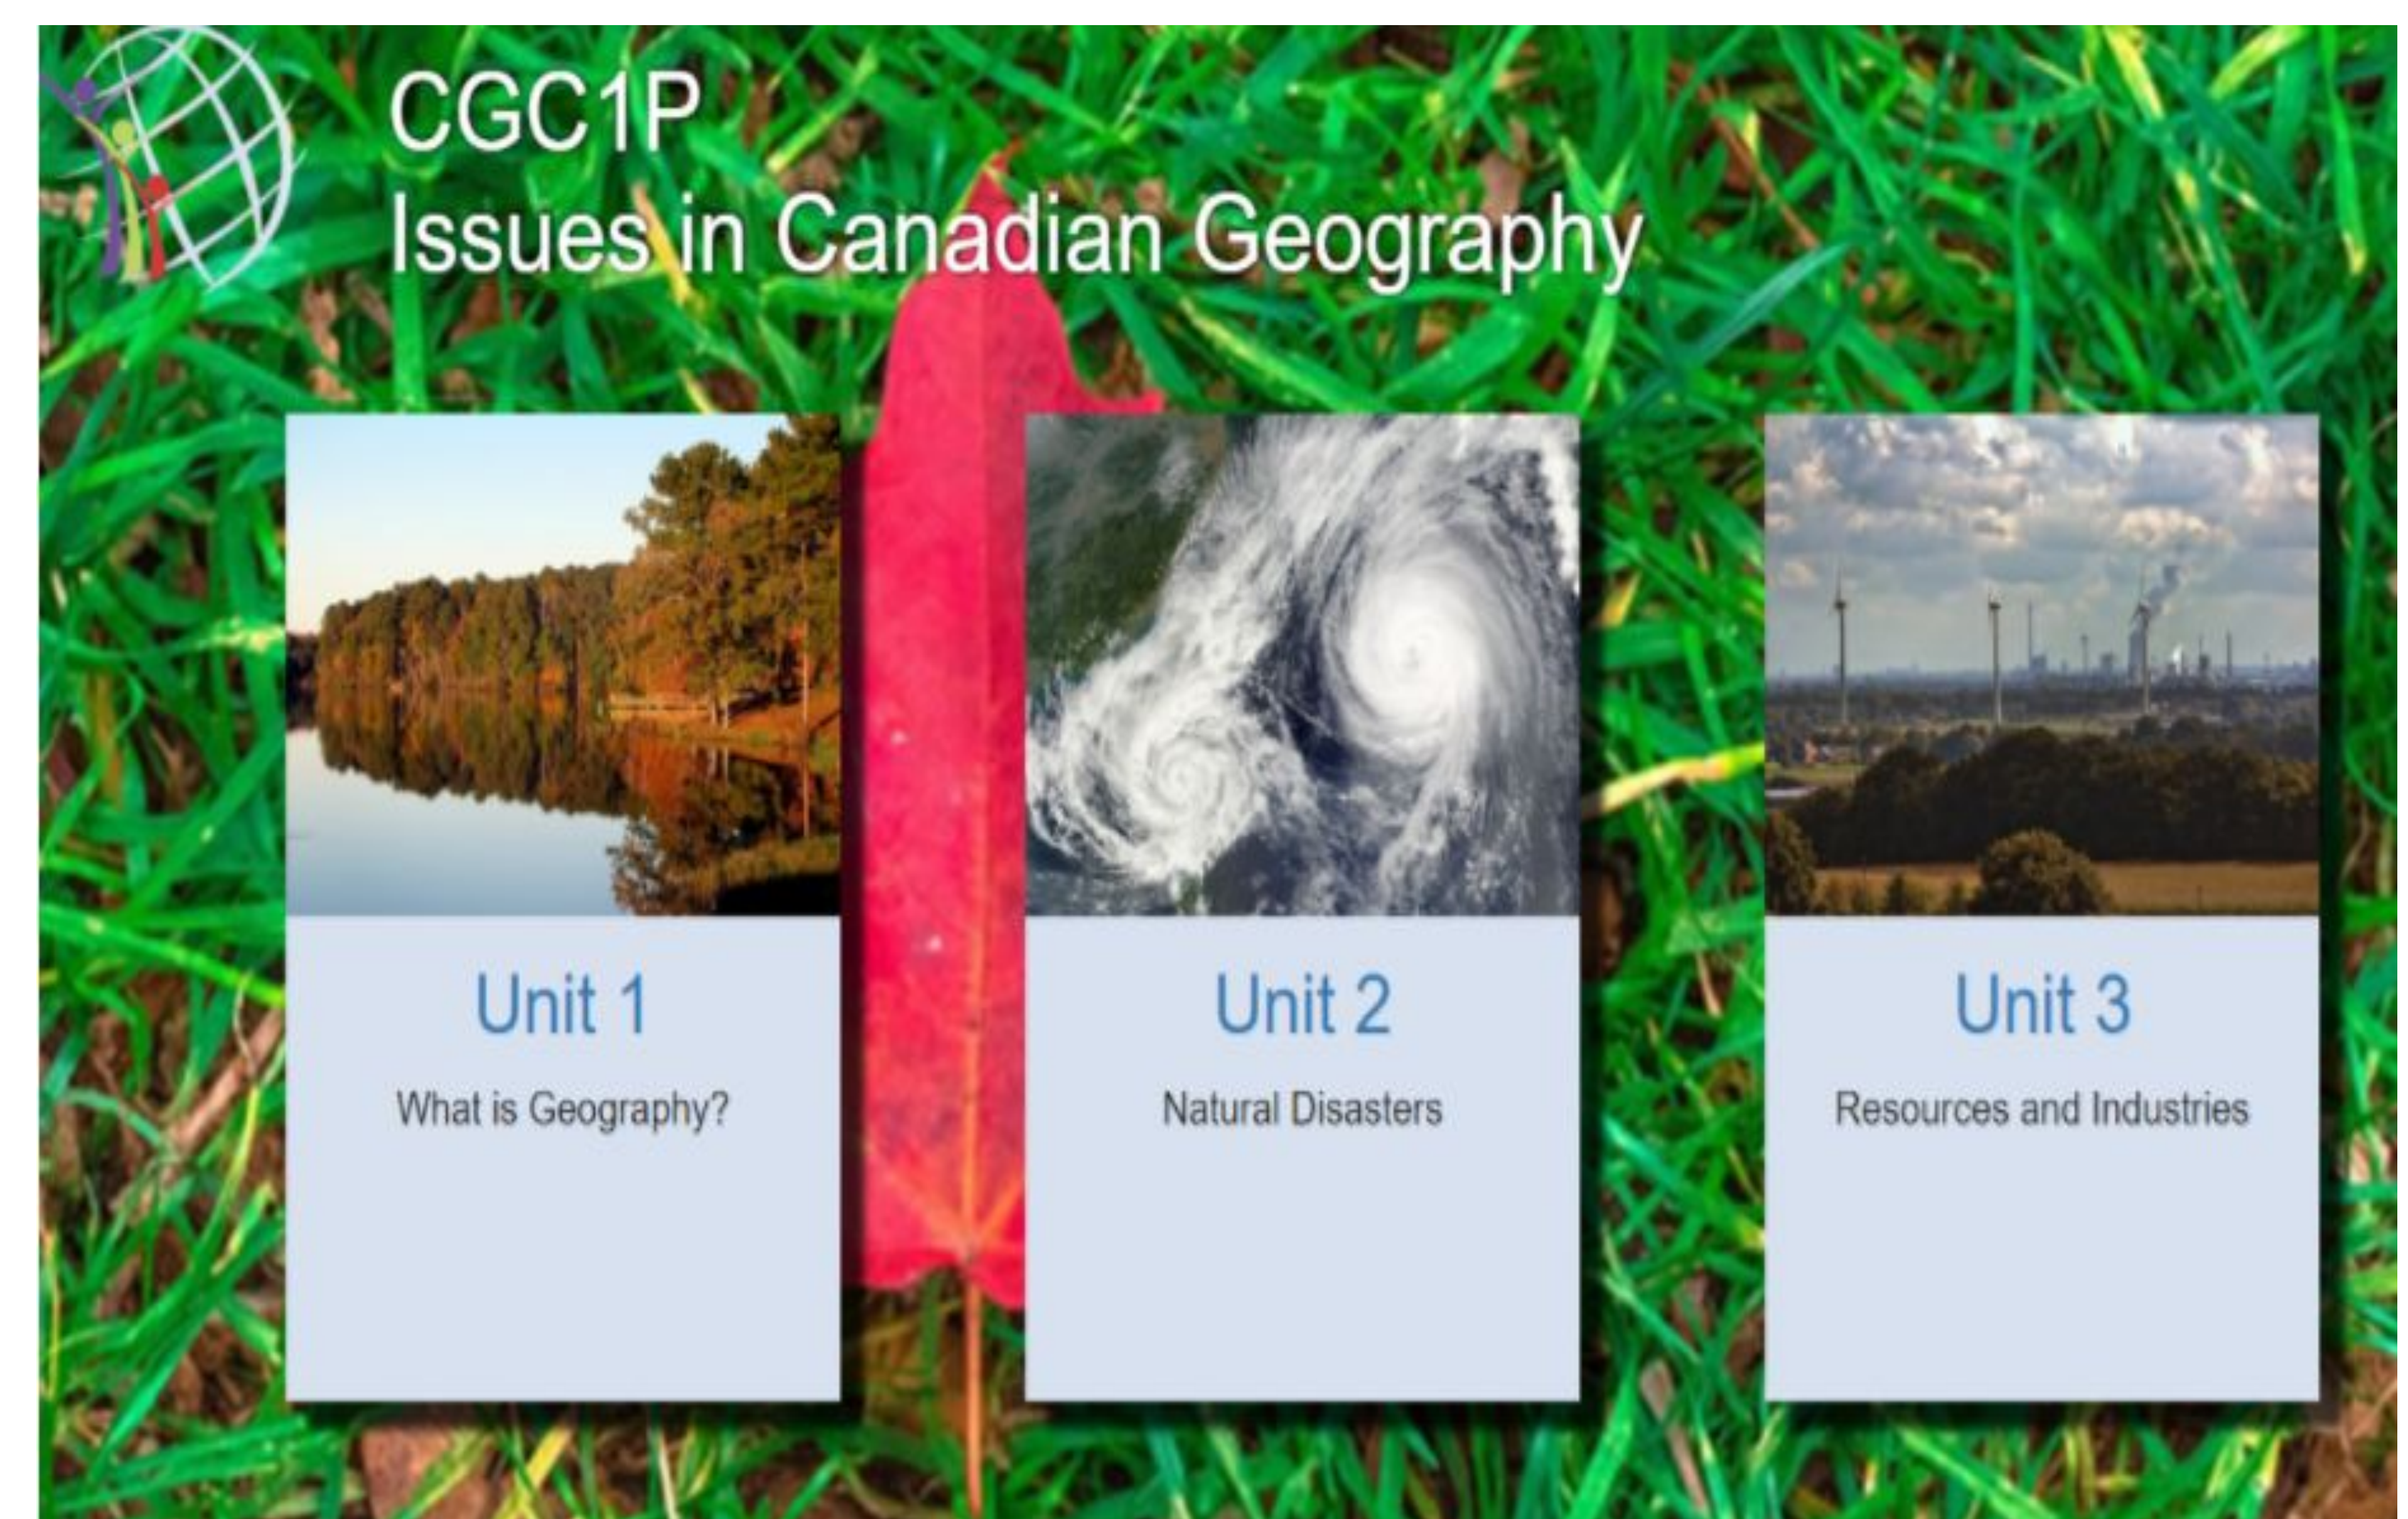

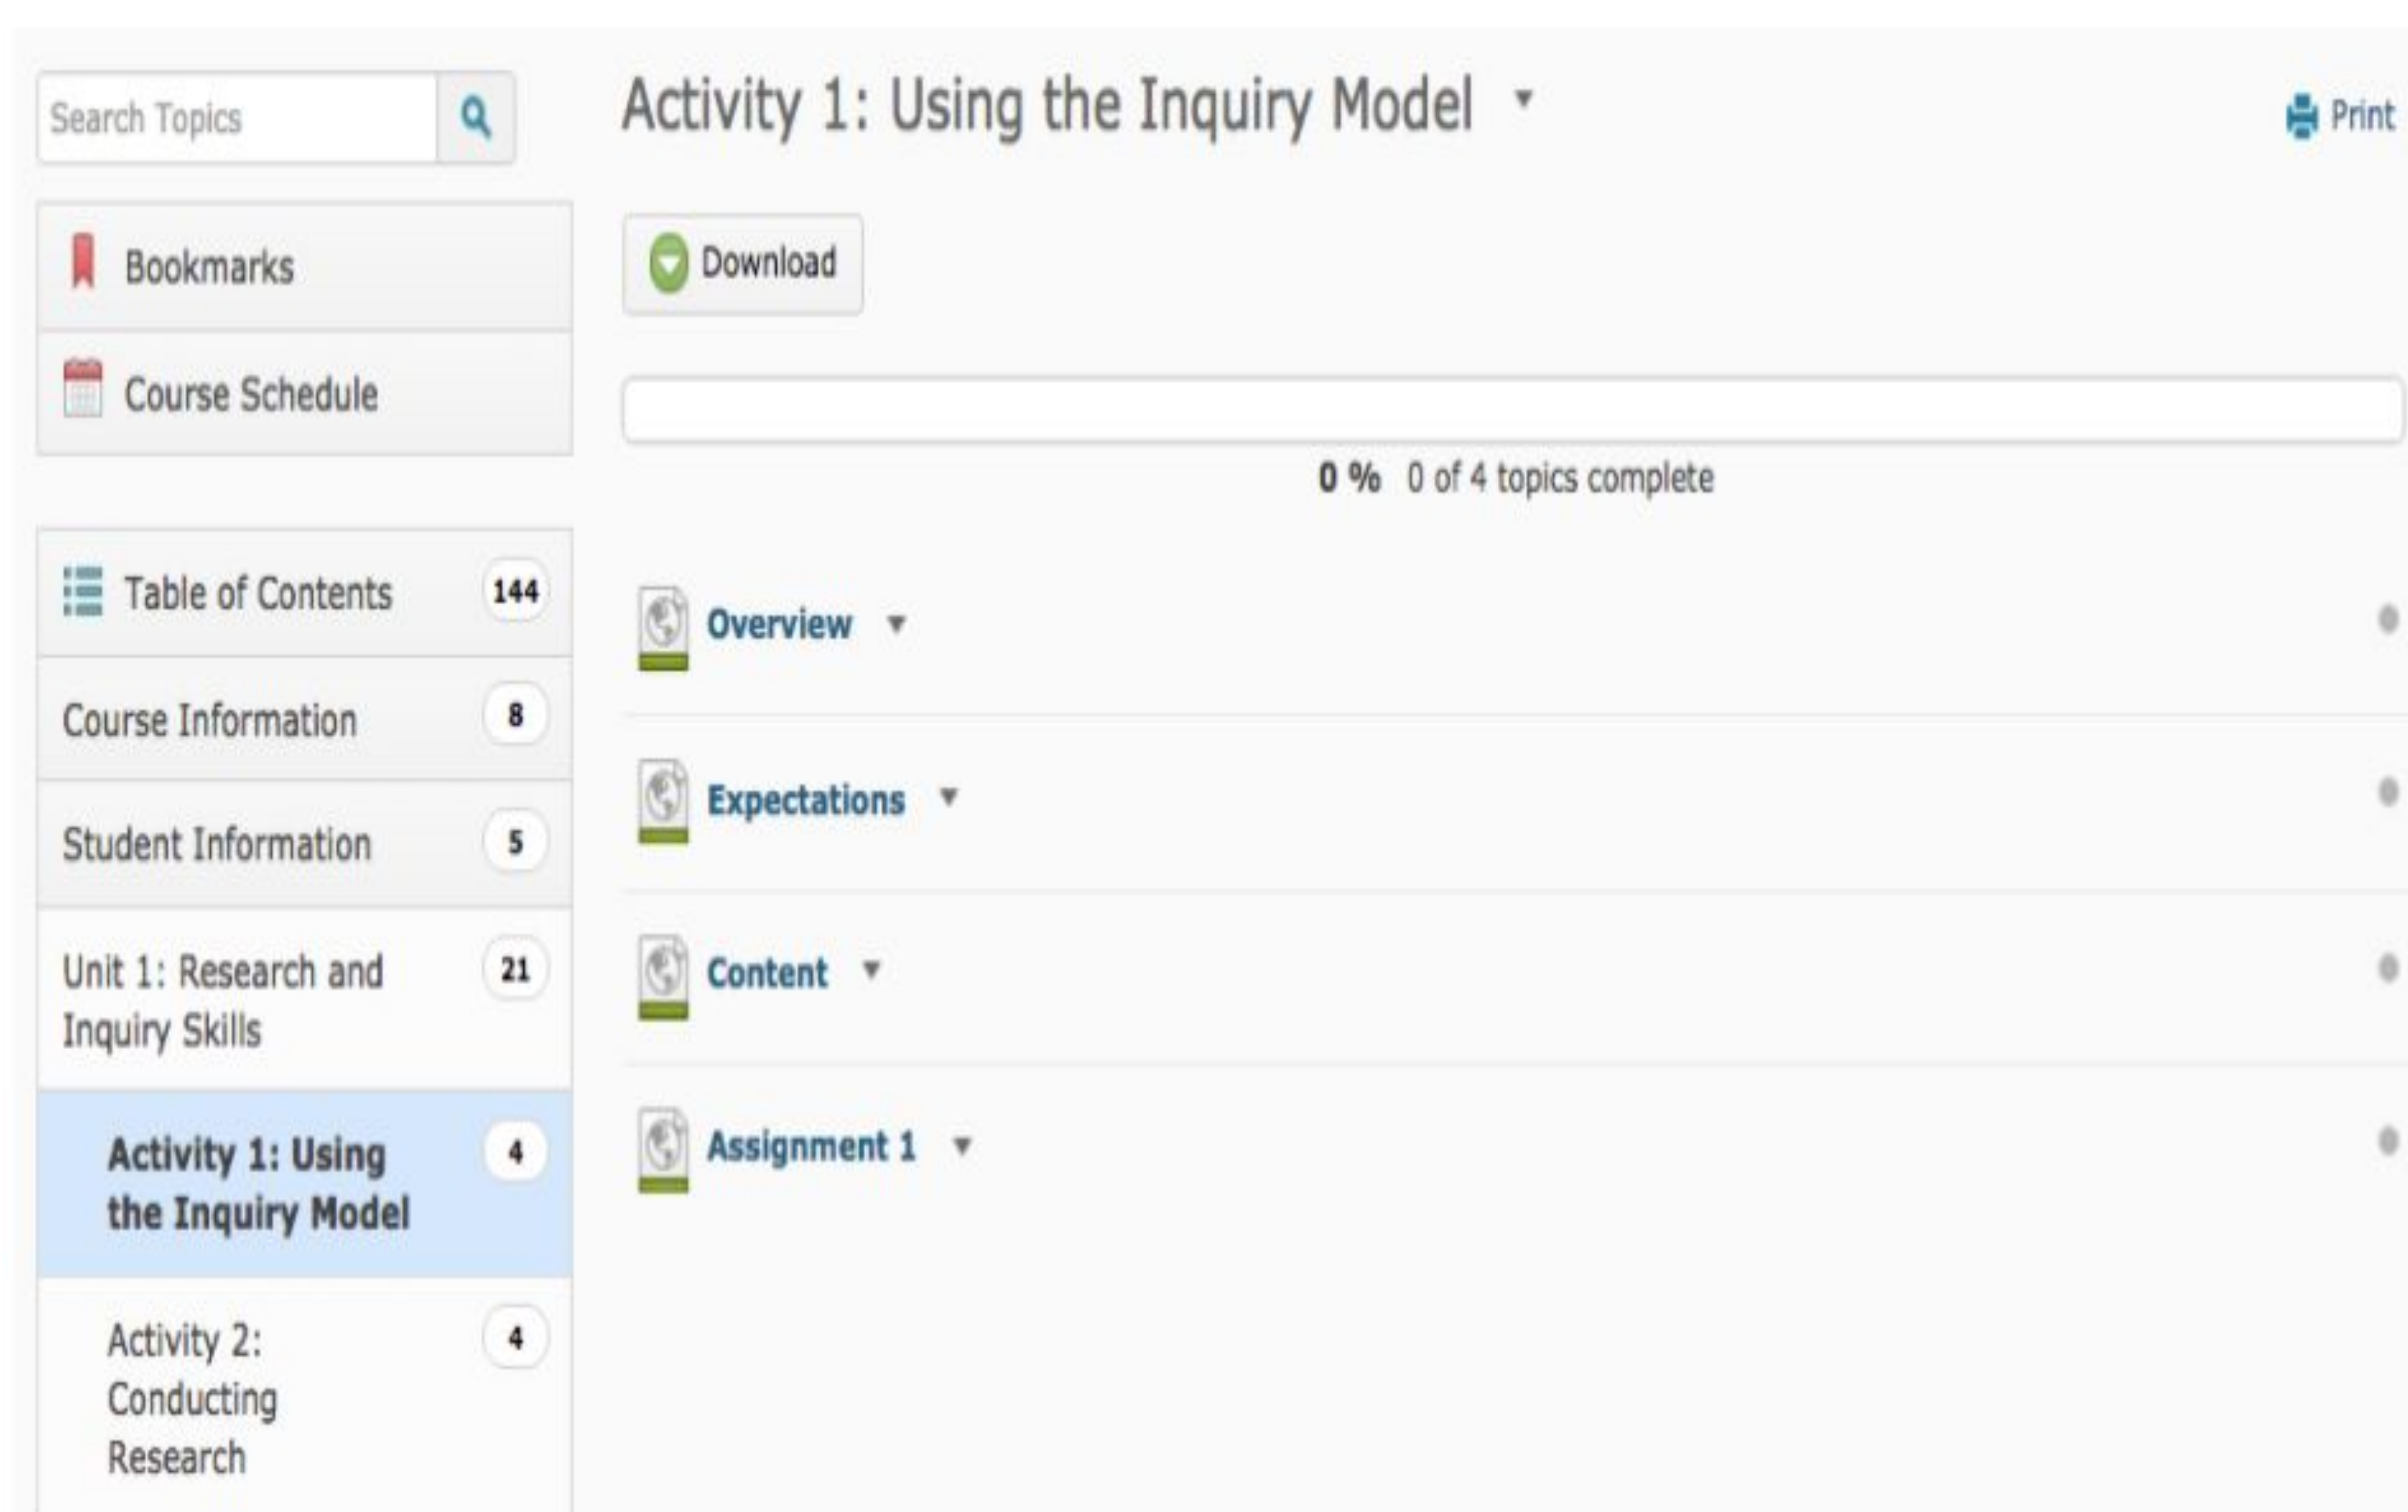

AVON MAITLAND DISTRICT  
**eLearning**  
CENTRE

## Navigate Course Content

The content area consists of webpages, links and videos. This is where you will read information, watch videos and complete activities to do the course. Select the Content link on the Nav Bar under 'My Class'.

- You are responsible for all materials in the content.
- Your teacher will provide details about your weekly work required.
- Click on the topic links to progress through each activity. Refer to the video for a demonstration of navigating, and finding assignments.
- Use the bookmark tool to note things you want to see again.
- The progress checkmark means that you have clicked the link and seen the information. It does not mean that you have completed the work.

Your course could be laid out on one scrolling page per activity with the following topics order, and assignments throughout the page:

- Minds On
- Action
- Consolidation

OR it could be laid out with the following structure in a group of linked pages for each activity with a separate page for the assignments:

- Overview
- Expectations / Learning Goals
- Content
- Assignments

If you can't locate materials, please ask your teacher for assistance.
